We are truly concerned over this street-flow issue on Ezell + Eddy Sts.

Everyday we sit on our front porch on Ezell St and witness people driving cars 30-40 miles an hour around our corner from Eddy St. onto Ezell and we personally have been crossing the street or riding our bikes and almost "Run Over" by these folks, "who really don't care" about our community safety. Next door we have young children 4-12 yrs old and have seen them very close to being ran over by these folks as well. Does it take a "hit + Run" accident to get your attention to this matter?? We hope not.

Respectfully submitted, Jeanette + Ben Everhart
