To Gardnerville Town Board

Re....one time extra check to all employees due to extra work during first part of Virus Have you also sent each employee a letter of accommodation and appreciation of flexibility recognizing the extra work for their personal files?

Thank you. Victoria J Roberts.

Respected Town Board Members:

It seems like every month there are more and more requests to build additional houses in our valley. If I wanted to live in a big city, I would have moved to Reno or Carson.

With all of the already-approved new home construction, our water table is getting to the point that it will not reliably serve so many more people. Our roads are more and more congested every day.

As a homeowner in Gardnerville, I respectfully ask our Town Board to DENY this application for an additional 51 units.

Sincerely,
Teri A. Cotham
Gardnerville
